

## **P. Anne Green Prize**

- P1  
(2018) There shall be a prize, called the Anne Green Prize, awarded, at the discretion of the Council, annually. It shall be for a significant advance or accomplishment by a mid-career scientist. The award will be based on a nominated body of work that supports the scientific accomplishment and the subsequent impact of the research. The research can be in any area of astronomy or a closely related field.
- P2  
(2018) To be eligible for the Prize, the applicant must have had their PhD conferred five to fifteen years prior to the nomination deadline. The applicant must also have been a financial member of the ASA for at least the two years immediately prior to nomination for the award taking into account any career breaks.
- P3  
(2018) The nominated body of work that supports the significant advance or accomplishment must have been published in refereed scientific journals, appearing in final published form within 5 years prior to the nomination deadline.
- P4  
(2018) Acceptable leaves of absence from active research will be taken into consideration when determining eligibility.
- P5  
(2018) The prize shall consist of a medal, a cash award of a value to be determined by the Council from time to time and free membership of the Society for the calendar year following the award.
- P6  
(2018) Council shall annually appoint an assessment panel for the award and nominate a Chair. The Chair will report to the Council on the selection process with a recommendation on the award recipient. The panel may recommend not to make an award in any year.

## **O. Louise Webster Prize**

- O2  
(2018) To be eligible for the Prize, the applicant must have had their PhD conferred within five years prior to the nomination deadline. The applicant must also have been a member of the ASA for at least two years **immediately** prior to nomination for the award **taking into account any career breaks**.
